World Confectionery Consumption and Production Statistics

The International Confectionery Associations’ report on confectionery statistics of the global market in 2006.

This 2006 Caobisco/International Confectionery Association (ICA) Statistical Bulletin brings together data on products in the European Union, Switzerland, Norway, United States, Canada, Australia, Japan, China and Brazil. In order to harmonize the figures, the report draws for the most part on PRODCOM data, as reported officially by Eurostat.
