Interpack 2008

Review of select confectionery-related exhibits on display in Düsseldorf this spring

During Interpack Processes and Packaging 2008, there were 2,744 exhibitors from 60 countries presenting innovations in machinery for packaging, the production of confectionery and bakery goods as well as packaging materials to 179,000 visitors from 121 nations.

The next Interpack in Düsseldorf, Germany, is scheduled for May 12–18, 2011.

Aasted-Mikroverk APS
Farum, Denmark
Tel: +45 443 480 00
www.aasted-mikroverk.com
Aasted-Mikroverk exhibited a completely new concept for modularized moulding lines.

The company has developed machines at a working width of 400 mm, which satisfies many smaller manufacturers. In addition, the machine can be used in connection with semi-automatic production.

The exhibited machinery also included FrozenCone equipment with the latest developments. This technology was invented and patented by Aasted-Mikroverk.
